A BEAUTIFUL USE OF SPACE

At Ideal Standard we believe bathrooms should be living places, not just functional spaces. For us, they're far more than just places to brush your teeth. They should be places to relax, to make yourself beautiful, to refresh and re-energise.

So for the past 100 years we have been designing products to help you create your ideal bathroom.

Whether that is a place to escape, a boudoir, a playroom or a sanctuary, it is always a beautiful use of space.

DESIGN WITH FEELING

Dick Powell, Founder
of Seymour Powell

World-renowned, award-winning designer Dick Powell is the visionary behind Dea, the new luxury range of bathroom ceramics and furniture.

Design innovation, he believes, is all about making life better. When it came to reinventing the modern bathroom, Powell's objective was to create a more human, 'emotionally satisfying' environment. In moving on from the last decade's trend for angular, minimalist bathrooms to Dea's softer, more flowing look and feel, he is offering an even more pleasurable experience.

His inspiration? You. What matters about design, he says, is 'how someone feels when they interact with it' – what he calls the 'emotional ergonomics'.

For a bathroom to make the user feel truly pampered, style must be matched by performance.

Dea's forward-looking, sensuous design delivers the ideal combination of premium quality and aesthetics, total comfort and exceptional functionality. Powell has left no detail to chance. From materials to technology, sophisticated ceramics to clever storage, every element has been carefully thought through for maximum elegance and ease of use.

Ideal Standard's knowledge, skills and experience have turned his vision of future comfort into beautiful reality.

SOFT CHIC

Indulge in Dea's softer, more feminine lines and create a personal space that cossets and cocoons

Your bathroom is your most personal space. It's the sanctuary you seek when you need to refresh, revive or relax. We believe that you should always emerge with a feeling of physical and emotional wellbeing.

Recent design trends have accustomed us to a cool, angular aesthetic in the home – but the future is warmer and softer. It's time to put the emotion back into our surroundings. Curved yet controlled, inviting yet elegantly poised, Dea's beautiful lines offer a perfect balance of chic, high-end design and pure pleasure.

Choosing and using your Dea bathroom is a holistic experience, as every element works with you and for you to create an atmosphere of complete serenity.

STYLE THAT WORKS

Real beauty isn't skin deep. Dea's high style is matched by the high performance of every piece

When you fall for Dea's sophisticated, soft styling, you can trust that every aspect of every piece has been carefully considered to make your life more comfortable and enjoyable.

The Dea range reflects how you like to function. Body-friendly rounded corners and slim rims; integrated ambient lighting; a Bluetooth sound system built in to mirrors; ingenious, spacious storage options to organise your basin area: it all adds up to an easy, uncluttered space with an air of calm indulgence.

MAKE A STATEMENT

If you're a connoisseur of contemporary design, use sculptural showpieces from the Dea range to emphasise the high-end, cutting-edge chic of your bathroom

Dea totem in Matt White finish with Melange wall-mounted fitting.

Every soft-edged, harmonious piece in the Dea range is a contemporary design classic, but this dramatically tall totem basin deserves iconic status. Cast all in one piece, it creates a striking focal point that proclaims your appreciation of innovative modern design.

Dea may be a work of art, but it's not just for staring at: it's a pleasure to use too. Our basins are conveniently deep as well as decorative, and their generous decks allow ample space for your brush, bottles and other accessories. Beauty with brains: that's our definition of pure, uncompromising luxury.

SHAPING UP

Whatever your available space and personal preferences, Dea has the luxurious solution.

When designing your ideal bathroom, begin by imagining the impression you want it to give, and how this could fit in with the way you and the others in your home will use it.

Decide which area is most important to you. If it's the bath, take that as your starting point and arrange everything else around it. Then you can really begin to explore the possibilities and set about creating a space that is both inspired and in harmony with the way you live.

The floorplans opposite illustrate just a few of the many possible bathroom configurations that will transform different-sized rooms. Think of them as a springboard for your own ideas.

A professional tip: keep storage and lighting central to your plans. Ideal Standard has a range of flexible storage options that help keep bathrooms clear and clutter-free, while clever lighting can create exactly the visual impact and mood you want.

SHAPES
TO
INSPIRE

Dea's wide selection of beautifully proportioned, distinctively curved, slim-rimmed ceramics gives you plenty of scope for creating an individual yet harmonious look in your bathroom. Vessels, vanities and totems, toilets and bidets: the high-end pieces come in different sizes and a choice of gloss white or matt-white finish, so you are sure to find a solution that suits your taste and space.

VESSELS

Make a design statement with one of Dea's exquisitely thin-rimmed vessels, designed to sit elegantly on top of basin units or worktops. Separate taps lend a look of hotel-style luxury, while a mixer mounted on the vessel's deck gives a more contemporary feel.

VANITIES

Thin and elegant, Dea's vanities are available in a range of widths. Whether you opt for a larger size to be a focal point of your bathroom or a smaller model to save space, you'll find the bowl is deep enough to be really practical.

TOTEMS

A Dea totem basin rises magnificently from the floor to waist height in a single, flowing piece; its delicate rim and sculptural impact make it an ideal choice for the seriously design-conscious. One version is installed with an integrated tap for a unified, harmonious look, while the other is paired with a wall-mounted tap option for a striking effect.

Totem with taphole

Totem without taphole

Select the style of basin that will work best in your bathroom, then take your pick of the elegant Dea furniture options featured on pages 16 to 19 to create your perfect pampering zone. Complete your sanctuary with the clean, contemporary lines of a coordinating bidet and toilet.

INSTALLATION OPTIONS

Decide which installation option best suits the image you want to create. A softly curved storage unit will keep your bathroom essentials close by but neatly out of sight, while Dea's sculpted semi-pedestal has a tidy, modern feel; a simple siphon is the elegant way to conserve space.

BIDETS

Floor-standing, or wall-hung to give an impression of floating weightlessly: the choice is yours. The satisfyingly curvy Dea bidet features the range's characteristic refined edges.

TOILETS

With its sophisticated curves, refined edges and comfortable slim-rim seat, a Dea toilet is an object of beauty. The chicly contemporary back-to-wall model – floor-standing or wall-hung – increases the sense of space in your bathroom, while the neat, floor-standing close-coupled toilet is a slightly more traditional choice.

FURNITURE

BEAUTIFULLY IN ORDER

Every element of a Dea bathroom combines inviting aesthetics, high-grade materials and supreme practicality. Because we believe in a beautiful use of space, clever storage solutions with Dea's soft, streamlined character are intrinsic to the range.

From round-cornered mirror cabinets and basin units to coordinating storage cabinets, every piece offers generous, well-planned space so that you can conceal your clutter and create a mood of serene escapism. Durable surfaces, a choice of sizes and a range of attractive contemporary finishes allow you to plan a unique, working bathroom of real beauty and ideal luxury.

BASIN UNITS

WITH REMOVABLE STORAGE BOXES

Dea basin units add to the serenity of your bathroom in various ways. They complement the soft, clean lines of the range's vanities and vessels and give you the storage space you need to maintain an atmosphere of order and calm; they also feature soft-close doors and drawers.

MIRROR CABINETS

A multi-purpose mirror cabinet is the answer for many bathrooms, particularly if space is limited. It hides away your toiletries behind soft Dea styling, brightens the room and creates an illusion of greater space, while its integrated internal and external LED lighting and double-sided mirrored doors put the pleasure into pampering. Available in three sizes.

We've thought of everything to ensure your bathroom furniture combines efficiency with elegance. The internal structure and functioning of each piece have been as carefully considered as the external, allowing you maximum use of the ample storage space, and the mirror designs include life-enhancing features such as built-in shelves or Bluetooth connectivity.

MIRRORS WITH SHELF

With its smooth-cornered, box-frame effect and single open shelf, this dual-purpose design is an unusual and attractive way to keep some of your favourite toiletries and bathroom essentials within easy reach. LED lighting ensures it is as practical to use as it is pleasing to look at, and with a choice of three sizes you are sure to find one to suit your space.

CABINETS

Dea's slender column cabinets come in two heights, so you have the option of increasing your storage capacity vertically rather than crowding your bathroom with wider units. To provide even more layout possibilities, they are available with either left- or right-hand opening. The single doors have a push-open system, which keeps them sleekly handle-free.

ELEGANCE FROM START TO FINISH

A simple change of finish can transform the individual look and feel of your bathroom. All of Dea's high-quality storage units come in a choice of gorgeous colours and textures, giving you the freedom to express your personal style. What will it be? Gleaming white for an air of purity, the modern effect of glossy light or dark grey; matt dark wood for a striking, deluxe effect; a soft, neutral beige – or even a few contemporary splashes of light blue or olive?
