Ogni invenzione ha la sua origine...

Anno 1968. TRES rivoluziona il settore vinicolo con un nuovo rubinetto per vino dalla migliore chiusura ermetica. Questo nuovo rubinetto evita perdite di vino ed entrate di aria superflua, eliminando la schiuma durante la mescita.

Con la creazione di rubinetti per barrique di vino nasce lo spirito industriale di TRES.

Jakýkoli vynález má někde svůj původ...

Rok 1968. Společnost TRES uvádí na trh své revoluční výpustné kohoutky pro sektor vinařství, které zlepšují hermetické uzavření. Tyto nové kohoutky zabraňují ztrátám vína a nepotřebnému vstupu vzduchu, přičemž při výtoku se nevytváří pěna.

Vznikem výpustných kohoutků pro vinné sudy se tak rodí průmyslový duch společnosti TRES.

Every invention has its origin...

1968. TRES revolutionises the wine sector with a new wine tap with an improved hermetic seal. This new tap prevents wine loss and the entrance of unnecessary air, eliminating foam when dispensed.

From the creation of taps for wine casks emerges the industrial spirit of TRES.

Produciamo comfort da più di 40 anni...

TRES è un'azienda familiare che, nei suoi più di 40 anni di esperienza, si è dedicata alla fabbricazione integrale e commercializzazione di rubinetteria di prima qualità sia per bagni che per cucine.

La sua vasta gamma si adatta alle necessità del consumatore più esigente. L'alto grado tecnologico, insieme alla grande varietà estetica e al comfort, permettono qualsiasi soluzione per le nuove tendenze in arredamento di interni.

La fabbricazione integrale dei prodotti nei suoi moderni impianti ne permette la qualità e il controllo costante durante tutto il processo. Inoltre, il suo sistema di gestione che assicura le consegne e minimizza gli stock dei clienti fa di TRES un'azienda leader nel mercato europeo.

Více než 40 let vyrábíme komfort...

Společnost TRES je rodinný podnik, který se již po více než 40 let věnuje kompletní výrobě a prodeji baterií prvotřídní kvality pro koupelny i kuchyně.

Široký sortiment nabídky uspokojí potřeby i těch nejnáročnějších spotřebitelů. Špičková technologie a široká estetická paleta nabízejí jakékoli komfortní řešení pro nové tendence dekorace interiéru.

Kompletní výroba výrobků v moderních instalacích zaručuje kvalitu a neustálou kontrolu během celého procesu. Navíc, díky svému systému řízení, který zajišťuje dodávky a minimalizuje zásoby na skladě, je společnost TRES lídrem na evropském trhu.

Over 40 years manufacturing comfort...

TRES is a family company with more than 40 years of experience dedicated to the complete manufacture and marketing of top quality tapware for bathrooms and kitchens.

Its wide range of products meets the needs of even the most demanding consumer. Its state-of-the-art technology, along with a wide variety of styles and comfort, offer the right solution for new trends in interior design.

All its products are manufactured under one roof, in modern facilities capable of ensuring consistent quality and control throughout the production process. Its management system also guarantees deliveries and minimises client stocks, making TRES the leading company in the European market.

TRES • TRAINING • CENTER Vallirana (Barcelona)

TRES Grifería Vallirana (Barcelona)

TRES Portugal Cacém (Polonia)

TRES Polska Łódź (Portugal)

L'ampia gamma e l'alta qualità dei prodotti TRES sono riuscite a espandere il marchio nel mondo.

Le filiali in Germania, Portogallo e Polonia sono il frutto di molti anni di produzione di qualità, con un buon servizio e a un prezzo molto competitivo.

Díky široké paletě výrobků a jejich vysoké kvalitě jsou tak výrobky značky TRES známé po celém světě.

Dceřiné společnosti v Německu, Portugalsku a Polsku jsou výsledkem mnohaleté práce, kvalitních služeb a velmi příznivých cen.

The wide range and high quality of TRES products have led the brand to expand around the world. Subsidiaries in Germany, Portugal and Poland are the result of many years of commitment to quality products and good service at a very competitive price.

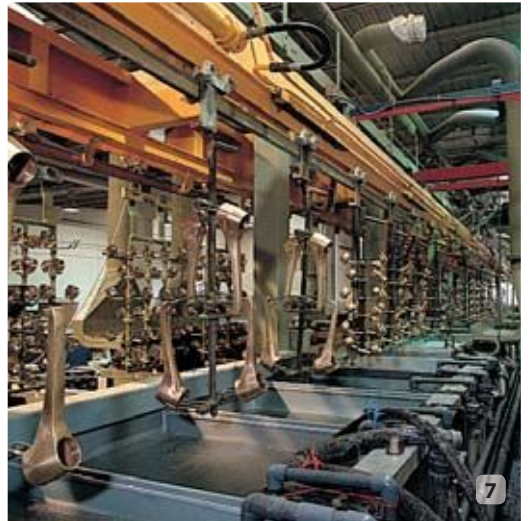

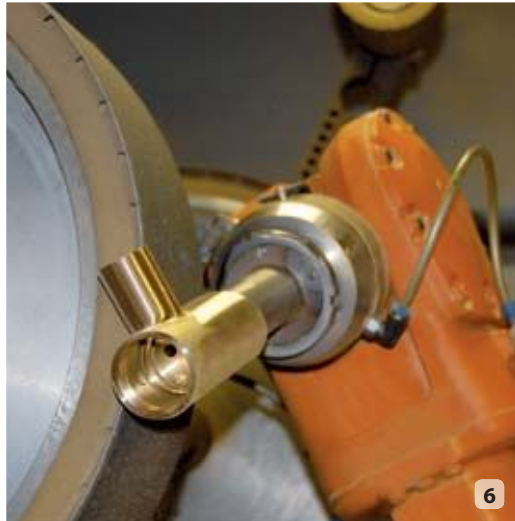

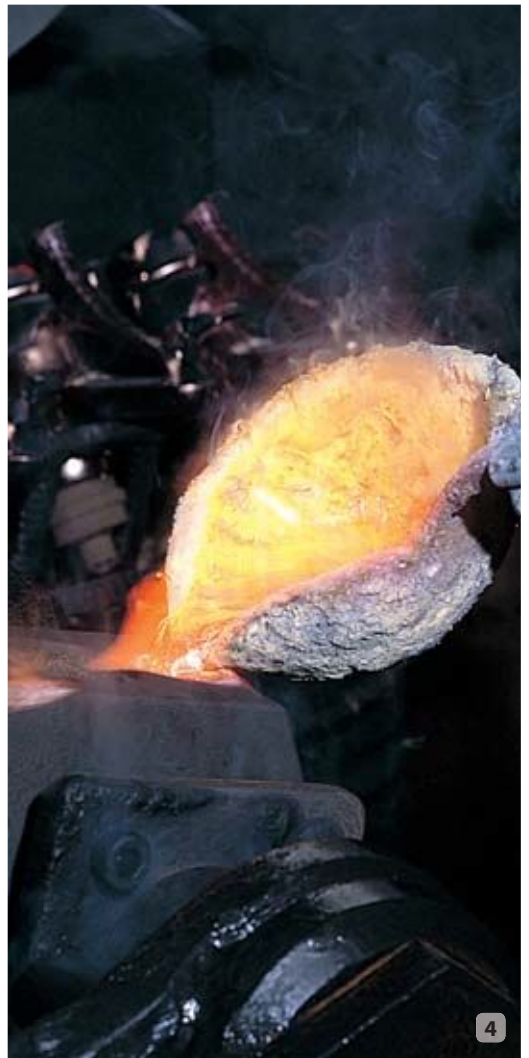

ISPIRAZIONE PER I TUOI SOGNI

INSPIRACE PRO VAŠE SNY

INSPIRATION FOR YOUR DREAMS

ACS

Pensato qui, progettato qui, fabbricato qui, per i consumatori di qui.... e anche per quelli all'estero...

In TRES estendiamo il controllo di qualità a tutti i processi di produzione, assicurando in tal modo un alto livello di qualità per tutti i nostri prodotti. L'uso di materie di prima qualità e un completo controllo dei processi di lavorazione dei materiali garantiscono al consumatore l'alta qualità del prodotto. Questo efficace metodo di controllo è possibile garantirlo soltanto se si producono i rubinetti dalla a alla z.

Vymyšlen zde, navržen zde, vyroben zde, pro zákazníky odsud... i odjinud...

Ve společnosti TRES provádíme kontrolu kvality ve všech výrobních procesech a zajišťujeme tím vysokou kvalitu veškerých našich výrobků. Využití prvotřídních materiálů a detailní kontrola manipulace s materiály zajišťuje spotřebitelům jedinečnou kvalitu produktů. Tuto efektivní kontrolní metodu lze garantovat pouze u výroby komplexního sortimentu baterií.

Devised here, designed here, manufactured here, for those here....and there...

At TRES, all production processes undergo quality control, ensuring a high level of quality for all the products we manufacture. The use of first-rate materials and exhaustive control over the material handling processes guarantee a high-quality product reaches the consumer. This effective control method can only be guaranteed by the start-to-finish production of our taps.

Laboratorio di ultima generazione, attrezzato per prove acustiche secondo la norma Europea EN 200-2008.

Laboratoř nejnovější generace vybavená pro akustické zkoušky dle evropské normy EN 200-2008.

State-of-the-art laboratory, equipped for noise testing according to European standard EN 200-2008.

Lingotto di ottone in lega CB7555 raffinato in Europa, con basso contenuto di piombo, conforme ai requisiti della norma Europea (UNE-EN1982)

Ingot z mosazi zušlechťené v Evropě ze slitiny CB7555 s nízkým obsahem olova, který splňuje požadavky evropské normy (UNE-EN1982)

Brass ingots refined in Europe from CB7555 alloys, with low lead levels, in compliance with the requirements of European standard UNE-EN1982.

Le barre di ottone provenienti dalla Germania, insieme ai controlli rigorosi a cui sono soggette al loro ricevimento, garantiscono indiscutibilmente la qualità che perseguiamo.

Mosazné tyče německého původu spolu s přísnými kontrolami při přebírání jsou nespornou zárukou kvality, o níž usilujeme.

Brass bars from Germany, in addition to strict receiving controls, are an irrefutable guarantee of the quality we're after.

Il procedimento galvanico TRES-MICRON®, frutto di 40 anni di esperienza e che assicura un perfetto livellamento dello spessore per le irregolarità superficiali dei pezzi, insieme a uno spessore medio molto regolare di 10-12 micron per il Nichel e di 0,25-0,35 micron per il Cromo, garantiscono un'elevatissima resistenza all'usura con una brillantezza duratura e inalterabile

Galvanický proces TRES-MICRON®, jenž je výsledkem čtyřicetiletých zkušeností, zaručuje dokonalé vyrovnání šířek na nepravidelném povrchu kusů a navíc velmi pravidelný průměr mikráže: 10-12 mikronů u niklu a 0,25-0,35 mikronů u chromu. To zajišťuje velmi vysokou odolnost vůči opotřebení a trvalý, neměnný lesk.

The TRES-MICRON® galvanic process, the product of 40 years of experience, ensures the perfect evening of thicknesses on irregular part surfaces, in addition to a very regular layer of 10-12 microns of nickel and 0.25-0.35 microns of chromium, guaranteeing extremely high resistance to wear with a long-lasting, persistent shine.

La verifica visuale e funzionale del 100% dei pezzi fa sì che i nostri prodotti superino con successo tutti i controlli che organismi ufficiali europei eseguono costantemente nei nostri impianti.

Díky vizuální a funkční kontrole všech součástí naše výrobky splňují požadavky všech neustálých auditů a kontrol našich závodů ze strany oficiálních evropských orgánů.

The visual and functional inspection of 100% of the parts contribute to our products consistently passing all audits carried out by official European entities at our facilities.

TRES · TRAINING · CENTER

Uno spazio per sognare | Prostor pro snění | A space in which to dream

Dopo più di 40 anni dedicati alla qualità nell'ambito della rubinetteria, il marchio TRES ha ampliato di recente uno spettacolare showroom in cui presenta tutte le ultime novità.

Situato nel cuore delle vaste strutture di Vallirana, il TRES TRAINING CENTER è lo scenario ideale in cui conoscere in prima persona le novità e le proposte più innovative dell'azienda. Si tratta in totale di oltre 1000 mq trasformati in un'incredibile sala esposizioni che aspira a diventare il punto di incontro e di riferimento per tutti i professionisti del settore, dagli architetti e arredatori agli installatori professionisti fino ai responsabili dei punti vendita. Qui non solo è possibile scoprire l'ampia gamma di prodotti TRES, ma è stato inoltre abilitato uno spazio in cui poter impartire corsi di formazione ad agenti commerciali, distributori, ecc.

Společnost TRES se po více než 40 let věnuje rozvíjení kvality svých výrobků a nedávno rozšířila svůj velkolepý showroom, kde představuje všechny své novinky.

TRES TRAINING CENTER se nachází v srdci rozsáhlého areálu společnosti TRES ve městě Vallirana. Slouží jako ideální prostředí, v němž se můžete přímo seznámit s novinkami a nejdůležitějšími inovacemi firmy. Plocha o rozloze přes 1000 m² přebudovaná v ohromnou výstavní halu si klade za cíl stát se místem setkání a referenčním bodem pro všechny profesionály z odvětví, od architektů či dekorátérů až po profesionální instalatéry či pracovníky prodejen. Nejenže zde naleznete široký sortiment výrobků firmy TRES, ale i prostor, kde je možné pořádat školení pro obchodníky, distributory...

After more than 40 years dedicated to quality in the field of tapware, the TRES brand has recently expanded its spectacular showroom where it introduces all its new products.

Located in the heart of the company's vast facilities in Vallirana, the TRES TRAINING CENTER is the perfect setting to find out first hand about its new products and most innovative suggestions. An area of more than 1000 m² has been transformed into an impressive exhibition room, intended as a meeting place and a point of reference for all professionals in the sector, from architects and decorators to professional installers and those responsible for the points of sale. Here not only can you discover the wide range of TRES products, but there is also a space available to provide training courses for sales representatives, distributors, etc.

Registrandoti come cliente TRES, potrai accedere alla nostra area riservata e godere di numerosi vantaggi. Essendo più veloce, l'inserimento degli ordini online consente di risparmiare tempo e denaro e di avvalersi, inoltre, delle promozioni e degli sconti periodici riservati esclusivamente ai clienti del sito. Senza dimenticare la possibilità di conoscere lo stato di consegna del prodotto, visualizzare la situazione e lo storico degli ordini, stamparli, fare preventivi, consultare lo stock... Solo vantaggi, in modo rapido, facile e comodo.

Zaregistrujte se jako klient společnosti TRES a získáte přístup do její vyhrazené sekce, kde můžete využít nabízených výhod. Zadávaní objednávek je rychlejší, protože je můžete dělat online. Ušetříte tak čas i peníze, budete totiž moci využít pravidelných promočních nabídek a slev určených pouze pro webové stránky. Kromě toho můžete výrobek sledovat, zobrazit stav a vývoj svých objednávek, vytisknout si je a dělat kalkulace, nahlédnout do našich zásob atd.

Jen výhody: rychle, snadno a pohodlně.

By registering as a TRES customer, you can access our private area where you can enjoy special benefits. Orders are placed faster since you can enter them online, saving time and money while also benefiting from regular promotions and discounts offered exclusively on our website. In addition, you can track products, see the status and history of your orders, print them and create quotes, consult our stock, etc.

These are just some of the advantages of a faster, easier and more convenient way to shop.

TRES-DUO®

Sistema a basso consumo d'acqua con apertura del rubinetto in due posizioni. Nella posizione intermedia, si consuma il 50% dell'acqua.

Systém nízké spotřeby vody s nastavením páčky do dvou poloh. V prostřední poloze se spotřebovává 50% vody.

Water saving system with a two-position handle. The middle position allows for a 50% water saving.

Il 90% delle volte che utilizziamo un rubinetto, in bagno o in cucina, non abbiamo bisogno di utilizzare il flusso massimo. Con questo sistema si ha un minor consumo di acqua e di energia.

V 90% případů používání baterie v koupelně nebo v kuchyni nepotřebujeme využívat maximální průtok. Díky tomuto systému dosáhneme nižší spotřeby vody a energie.

When we use a basin or kitchen tap, 90% of the time we do not need the maximum flow. With this system, we can obtain greater water and energy savings.

COLD-TRES®

Sistema a basso consumo energetico in cui il rubinetto si apre sempre con acqua fredda, evitando inutili accensioni dello scaldabagno.

Systém nízké spotřeby energie, kdy se baterie vždy otevírá se studenou vodou, zamezuje zbytečnému zapínání ohřívače.

Energy-saving system whereby the tap always runs cold water first, meaning that the water heater does not switch on unnecessarily.

Aprendo il rubinetto con la leva in posizione centrale, si consuma solo acqua fredda ed è l'utente che decide quando effettivamente desidera utilizzare l'acqua calda spostando la leva verso sinistra, il che comporta un notevole risparmio di energia.

Při nastavení páčky na střední polohu se spotřebovává pouze studená voda a je jen na spotřebiteli, zda posunutím páčky doleva použije i teplou vodu, což v důsledku přináší vysokou úsporu energie.

When the tap is turned on in the central position, only cold water is used. The consumer decides when he or she wants to use hot water, providing great energy savings.

PROTEC-TRES®

Sistema di protezione contro le scottature, che consente di definire la posizione di massima apertura della leva per l'acqua calda.

Systém ochrany, který zamezuje opaření a umožňuje zvolit maximální polohu páky pro tok teplé vody.

Anti-scalding protection system allows the user to decide the maximum lever opening position for hot water.

A seconda della posizione dell'anello Protec-Tres®, s'imposta la corsa della leva in modo da poter regolare la temperatura massima dell'acqua.

Podle polohy kroužku Protec-Tres®, který určuje dosah páky, můžete nastavit maximální teplotu vody.

The position of the Protec-Tres® ring determines the movement of the lever, so that you can adjust the maximum temperature of the water.
